Regular Meetings,: Held PTA meetings to discuss school policies, academic progress, and student welfare.

The academic year 2023-2024 has been marked by remarkable achievements across various domains. The school's commitment to environmental education, sports, innovation, and academic excellence has fostered a holistic development environment for students. With strong support from faculty and staff, the school has not only achieved its goals but also set higher standards for the coming years. The success of this academic year would not have been possible without the relentless efforts of our cadets, the guidance of our teachers and instructors, the involvement of parents, and the support of the entire school community. We look forward to another year of growth, learning, and success.
